Dear Sir

The Minister on 8 April 2016 granted Mining Lease No 1733 (Act 1992) in satisfaction of this application. This authority expires on 8 April 2037. The lease is enclosed for your records.

You are reminded of the following:

- ◆ Mining operations must be conducted in accordance with a Mining Operations Plan satisfactory to the Secretary. This plan must be lodged before operations commence.
- ◆ The definition of 'land' and 'landholder' is described in the dictionary of the *Mining Act 1992*.
- ◆ Before operations commence you must also negotiate an agreement regarding compensation with any affected landholder or have compensation assessed by the Land and Environment Court.
- ◆ Notification of the grant of the lease must be served on each affected landholder not later than three months from the date of grant.

Authorisation 315 (Act 1973) has been cancelled over the land covered by the grant of Mining Lease 1733, from surface to 900 metres below AHD.

In accordance with section 163(3) of the *Mining Act 1992*, the holder of a mining lease that authorises the holder to mine for coal or to carry out mining purposes in connection with the mining of coal, must apply to have the mining area registered as a colliery holding or recorded on the register as part of an existing colliery holding. Please lodge Form AD15 and the prescribed fee to record this lease in the Stratford colliery holding. Application forms and a list prescribed fees are available from the Title's section of the Department's website: www.resourcesandenergy.nsw.gov.au.

In regard to Condition 9 (Cooperation Agreement) -- the MinView system located on the Department's website (www.resourcesandenergy.nsw.gov.au) will be of assistance in determining the presence of overlapping petroleum titles.
